The undersigned being acquainted with some of the ingredients of Hutchings' Vegetable Dyspepsia Bitters, and having used it for some time in his practice with every desired effect, he recommends this medicine from the certainty of its effect, and gives it a preference over all preparations in medicine for that distressing complaint, Dyspepsia.

From Luther A. Wyman, Esq., late President of New York Musical Society, now of Brooklyn:

LITTELL'S LIVING AGE,

E. LITTELL & CO., cor. of Tremont and Bromfield streets, Boston.

This work is conducted in the spirit of Littell's Museum of Foreign Literature, (which was favorably received by the public for twenty years,) but as it is twice as large, and appears so often, the editor not only gives spirit and freshness to it by many things which were excluded by a month's delay, but will then extend its scope and gathering a greater and more attractive variety, is able to increase the [illegible] of this literary, historical, and political harvest, as fully to satisfy the wants of the American reader.

The elaborate and stately Essays of the Edinburgh, Quarterly, and other Reviews; and Blackwood's noble criticisms on Poetry, his keen political Commentaries, highly wrought Tales, and vivid descriptions of rural and mountain Scenery; and the contributions to Literature, History, and Common Life, by the sagacious Spectator, the sparkling Examiner, the judicious Athenæum, the busy and industrious Literary Gazette, the sensible and comprehensive Britannia, the sober and respectable Christian Observer; these are intermixed with the Military and Naval reminiscences of the United Service, and with the best articles of the Dublin University, New Monthly, Fraser's, Tait's, Ainsworth's, Hood's, and Sporting Magazines, and of Chambers' admirable Journal. He does not consider it beneath his dignity to borrow wit and wisdom from Punch; and, when he thinks it good enough, makes use of the thimble of the Times.

The steamship has brought Europe, Asia, and Africa, into our neighborhood; and will greatly multiply our connections, as Merchants, Travellers, and Politicians, with all parts of the world; so that much more than ever it now becomes every intelligent American to be informed of the condition and change of foreign countries. And this not only because of their nearer connection with ourselves, but because the nations seem to be hastening, through a rapid process of change, to some new state of things, which the merely political prophet cannot compute or foresee.

Geographical Discoveries, the progress of Colonization, (which is extending over the whole world,) and Voyages and Travels, afford favorite matter for his selections; and, in general, the editor systematically and very fully acquaints his readers with the great department of Foreign affairs, without neglecting our own.

While the Living Age is desirable to all who to keep themselves informed of the rapid progress of the movement—to Statesmen, Divines, Lawyers, and Physicians—to men of business and men of leisure,—it will be found to be equally attractive and useful to their wives and children. It is indispensable to every well-informed family. We say indispensable, because in this day of cheap literature it is not possible to guard against the influx of what is bad in taste and vicious in morals, in any other way than by furnishing a sufficient supply of a healthy character. The mental and moral appetite must be gratified.

By "winnowing the wheat from the chaff," by providing abundantly for the imagination, and by a large collection of Biography, Voyages and Travels, History, and more solid matter, a work is produced, well calculated for universal popularity, and to raise the standard of public taste.

This excellent work is published every Saturday, by E. LITTELL & Co., Boston, who supply orders by mail from all parts of the country. Remit any sum to them, and they will send the work to that amount. Each number makes a handsome pamphlet of 48 pages double col octavo. Price, 12 1-2 cts.,—or by the year, six dollars. We add to our own recommendation, what our readers will value infinitely more, a letter from the late Ex-President J. Q. Adams:—

"WASHINGTON, 27th December, 1845.

Of all the Periodical Journals devoted to Literature and Science which abound in Europe and this country, this has appeared to me to be the most useful. It contains indeed the exposition only of the current literature of the English language, but this by its immense extent and comprehension includes a portraiture of the human mind in the utmost expansion of the present age.
"J. Q. ADAMS."

From the Boston Chronotype.

Consumption is the great curse of our northern latitude. It is the blight of domestic felicity and the despoiler of beauty. It robs the cheek of its healthful bloom, the mind of its serenity, and the eye of its brilliancy. It wasted the form, dims the intellect, and plunges its victim into an early grave. The young and old, the serious and the gay, the city belle and the country lass, are alike its victims. Blessings on the man, then, whose genius and research furnished us weapons to bid defiance to this "Dweller of the Threshold!" He merits the applause and gratitude of ages—he shall have ours, at least.

WRIGHT'S INDIAN VEGETABLE PILLS SUGAR FROSTED!—The Proprietor of this popular Family Medicine thankful for the extensive and increasing favor with which it is received, and feeling desirous of making every improvement in his power, begs leave to announce, that he has added an OUTSIDE FROSTING to the pills, of pure White Sugar, whereby everything disagreeable to the taste or smell is entirely removed, without in the smallest degree affecting, in other respects, the excellent qualities of the medicine.—The want of an innocent and convenient medium of disguising the Pills, is generally felt, is thus supplied, and it is confidently anticipated that the frosting will prove highly acceptable to the public. The occasional use of medicine is a matter of necessity with the great majority of mankind. Whatever, therefore, is done to remove its disagreeable associations, is a public benefit. The value of Wright's Indian vegetable Pills is well understood. Innocent and efficacious, free from minerals of every description, and adapted to the circumstances and condition of life, they are esteemed beyond all other remedies, as the greatest family medicine of the day. The frost-coating is an addition intended merely to conceal the taste and smell. These Pills will also continue to be prepared without the frosting, as heretofore, so that all who prefer them in their original state, may still be accommodated.

GENERAL DIRECTIONS.—The ordinary dose for a grown person is from two to four Pills; but in cases of violent pain, in any part of the body, the medicine should be taken in large doses, and repeated every night on going to bed, (or oftener if the suffering is great) until pain or distress of every kind is removed; after which, the medicine should be taken merely with a view to keeping the bowels regular which will in a short time restore the body to a state of sound health.

For more particular directions, see the circular accompanying each box.

THURSDAY MORNING, OCT. 24 1850.

MUSIC.—The grandest office of music is that in which, no doubt, it originated—that in which, early, it had its first culture; in which, latest, it has its best—we mean its office in religion. In the sanctuary it was born, and in the service of God it, arose with a sublimity with which it could never have been inspired in the service of pleasure. More assimilated than any other art to the spiritual nature of man, it affords a medium of expression the most congenial to that nature. Compared with tones that breathe out from a profound, a spiritually musical soul, how poor is any allegory which painting can present, or that symbol can indicate. The soul is invisible; its emotions admit no more than itself of shape or limitation. The religious emotions cannot always have even verbal utterance. They often seek an entrance yet nearer to the infinite; and such they find in music. You cannot delineate a feeling, at most you can but suggest it by delineation. But in music you can by intonation directly give the feeling. Thus related to the unseen soul, music is a voice for faith, which is in itself the realization of things not seen.—And waiting as the soul is amidst troubles and toils, looking upward from the earth, and onward out of time, for a better world or a purer life, in its believing and glad expectancy, music is the voice of its hope. In the depression and despondency of conviction; in the struggles of repentance; in the consolations and rejoicing of forgiveness; in the worldless calm of internal peace, music answers to the mood, and soothingly breaks the dumbness of the heart. For every charity that can sanctify and bless humanity, music has its sacred measures; and well does goodness merit the richest harmony of Heaven. Sorrow also, has its consecrated melody. The wounded spirit and the broken heart are attempered and assuaged by the murmurings of divine song. A plaintive hymn soothes the departing soul. It mingles with weeping in the house of death. It befits the solemn ritual of the grave. The last supper was closed with a hymn, and many a martyr for Him who went from that supper to His agony, made their torture jubilant in song of praise.

TREES.—Nature has given us trees in vast nurseries. It is for us to take them up and put them where we choose to beautify the landscape, and to contribute to the comfort and health of man.

In this matter of planting trees, there is more than the mere cultivation of the taste. The silent or audible benedictions that go up from weary travellers when they come on a hot summer's day to a spot where full and branching trees cast a cool and grateful shade upon their path, speak a kindlier praise for an act of benevolence than words here can do. Trees, for shade, contribute not alone to simple animal comfort, they are life-preserving, health-giving in their influences. Let then the dweller in the town plant trees. Let him who is a home in the quiet country village, make that village more lovely by vigorous and graceful trees. Let the cultivator of the retired farm make it beautiful, and access to it pleasant, by groups of trees upon his land, and rows of trees by the wayside. Let every one plant a tree.

☞ Love is the weapon which Omnipotence reserved to conquer rebel man, when all the rest has failed. Reason he parries; fear he answers blow for blow; future interest he meets with present pleasure; but love, that sun against whose melting beams winter cannot stand—that soft, subduing slumber, which wrestles down the giant—there is not one human being in a million whose clay heart is hardened against love!

☞ A bright and beautiful bird is Hope; it comes to us 'mid the darkness, and sings the sweetest song when our spirits are saddest; and when the lone soul is weary and longs to pass away, it warbles its sunniest notes, and tightens again the slender fibres of our hearts that Grief has been tearing away.

The greatest friend of Truth is Time, her greatest enemy is Prejudice, and her constant companion is Humility.

THE PRESIDENT'S WIFE.—The Fair at Castle Garden, presents to its visitors one point of attraction of a very remarkable and unique character. It is nothing less than a large gothic armchair, backed and cushioned with beautifully wrought needle-work in worsted. The needle work is from the hands of the lady of one who now fills the Presidential chair, Millard Fillmore, President of the United States. It is probably the first instance upon record, in modern times, where the Industrial Exhibition of a great nation has been graced by the handiwork of the lady of one who occupies the position of its Chief Magistrate. This may, it is to be hoped, excite the emulation of the fair daughters of our Republic. Much time remains to be redeemed from frivolous suits; the impress must be made strong, that its perpetuity requires the best efforts of us all. We hope the ladies will compliment this part of the Exhibition by an examination of it, at least.—[N. Y. Courier and Enquirer.

Speaking of cheap things—It costs but a trifle to get a wife, but dosn't she sometimes turn out a little dear?

Jenny Lind at the Swedes' Church.—A sensation of no ordinary character was created in Southwark yesterday by the visit of M'lle Jenny Lind to the Protestant Episcopal Church of Gloria Dei, in Swanson street, below Christian, better known as the "Old Swedes' Church." The congregation in attendance was very large, and the crowd in the vicinity of the Church also large. An excellent discourse was delivered by the pastor, Rev. J. C. Clay, from the text, "What shall I do to inherit life?"—and the choir was full and effective.

At the close of the services, M'lle Lind received the greetings of numerous descendants of the pioneer emigrants from her own native land, who settled upon the banks of the Delaware, on the hunting grounds of the Weccacoes, and were the original founders of the time-honored edifice, within the sacred walls of which she had been permitted to worship.—M'lle Lind responded to the congratulations and welcome she received, in an expressive and silent manner. The associations of this place, and the warmth of her reception, affected her to tears. She expressed her most heart-felt gratification at her visit.—*Phil. Gazette*

FIRE VS CATERPILLARS.—Some years ago, great numbers of caterpillars made their appearance on our fruit trees—apples, peaches and plums—committing terrible depredation. Many trees were entirely stripped of their leaves, and, of course, we had but little fruit, and that scrubby. In spite of our efforts to subdue, their numbers increased annually. At last I took a pole long enough to reach up to all the nests, and on the small end of it, put a coating of tar about six inches in length; around this I wound some tow or flax about half an inch thick, and covered it again with tar and tow alternately, until I had a bunch about twice the size of a coacoa nut, with tar on the outside. This completed, I took it to the trees infested, and setting fire to it with a friction match, I held it near the nests, so that the blaze would reach them. But a moment was required to destroy both caterpillars and their nests. Such a tar knot will burn at least an hour. No harm is done to the tree, except when the nest is near some buds, and even then it is inconsiderable. Having persisted in this plan we are now but little troubled with them. It is preferable to pulling the nests down, as none of the inhabitants of the nest escape. Not one nest out of one hundred will be rebuilt.—*Farmer.*

VERY EXPLOIT.—A Yankee riding up to a Dutchman exclaimed:

"Well, stranger, for acquaintance sake, what might be your name?"

"Vy my name ish Hauns Hollenbeffenhelffengraefienstein erpurg."

"Cape Cod! It's as long as a pumpkin vine! Well, I haint no time to lose,—I'm on a speculation. Tell me the way to Harrisburg."

"To Harrisburg! Vell, you see dat road 'pun to hill?" pointing the direction.

"Oh yes, I see it."

"Vell you must not take dat road. You see dat road py to coal pank?"

"Yes."

"Vell dat ish not de road too, put you must go right py the barn, and ven you see one road crooks jist so (bending his elbow and describing it at the same time) and ven you git dere keep along till you gits fudder. Vell, den you vil turn de potato patch round to pridge over te river up the stream and to hil up, and tireely you see my podder Fritz parn, shinkled mit straw, tat's te house my podder lives. He'll tell you so petter as I can. And you go on a little pit fudder, and you see two roats,—you mustn't take boat ov um."

Fashionable society generally has but two faults: first, in being hollow-headed; and secondly, hollow-hearted.

Fast Shaving.—The St Louis Reveille tells the following good story.

"Three brothers, bearing a remarkable resemblance to one another, are in the habit of shaving at a barber's shop in Olivier street. A few days since one of the brothers entered the shop early in the morning, and was duly shaved by a German who had been at work in the establishment for one or two days. About 12 o'clock another brother came in and underwent a similar operation at the hands of another person. In the evening the third brother made his appearance, when the German dropped his razor in astonishment, and exclaimed: "Vell, mine cot! dat man hash the fastest beard I ever saw. I shaves him dis mornin, another shaves him at dinner times, and he comes back now mit his beard so long as it never was."

A party of Thirteen Fugitive Slaves passed through Tamaqua, Schuylkill county, last Friday, en route for Canada. The next day they were followed by two individuals, who, engaging the assistance of our constable, followed on in their pursuit. The pursuers succeeded in overtaking the slaves at Wilkesbarre; but owing to the strong expression of feeling manifested by the people in their favor, they were forced to beat a hasty retreat. The constable was induced to follow them under the impression that they were horse thieves, but on learning otherwise, he refused to render any further co-operation.—*Phila. Ledger.*

LIQUOR DRINKER.—*Magistrate*—What brought you here, sir?

Prisoner—Two policemen, please your honor.

Magistrate—Then, I suppose liquor had nothing to do with it.

Prisoner—Yes, sir, they were both drunk.

That nobility is the truest, which a man derives, not from his pedigree, but from himself; the excellency is the greatest, which is personal; that glory is the most estimable, which is fixed in our intellectual and moral attributes, not that which a man looks up with his cash, or puts by with his ribbons.

—Mr. G. P. R. James, the novelist, has declared, in the proper court, his intention to become a citizen of the United States. Messrs. Stringer & Townsend, of New York, have contracted with him for a new novel, which is to appear as a serial in the pages of their International Monthly.

New Reason for the Perpetuity of the Union.—A Western orator, haranguing his audience on the vast extent and overwhelming population of the American Republic, exclaims by way of climax, "Faneuil Hall was its cradle, but whar shall we find timber enough for its coffin!"

Great Despatch. We saw last evening on the counters of Messrs. The order was sent by the Europa to Messrs. S. Allain & Co., Paris; the cloths were bought and the goods printed, after its receipt in Paris, and the goods sent to Havre, and from Havre to Liverpool, and came in the America, 5th Oct. steamer, arriving early Thursday morning. Passing our Custom House with equal despatch, they were on Messrs. W. & Co's counters for sale in 44 days from the date of the order, which can be seen and substantiated, if any doubt this *unprecedented tour de force.*—*Boston Evening Transcript.*

Advices from Texas state that a general Indian war is anticipated in that State. A great number of depredations have recently been committed by the Indians near Salivin, and two daughters of a German were carried off. Affrays and murders are quite numerous at San Antonio.

The Boundary Commissioners had reached San Antonio, where one of their teamsters killed a man named George Terment, by stabbing him with a bowie knife. Another of the teamsters had an altercation with a Mexican near San Antonio, whom he killed and then made his escape.

RACING FUNERALS.—On Sunday afternoon three funerals got into a race for the "priority of the road" on Mill Row in Somerville, during which one of the hearses was smashed up, the coffin thrown, and other damage done to carriages and human faces. The coffin thrown out of the hearse was taken on the shoulders of four men, and in that way conveyed to the burial ground in Cambridge. Such races have become quite too frequent.—*Boston Post.*

AFRICAN COLONIZATION.—LETTER OF REV. MR. GURLEY.

Washington, Oct. 1850.

My Dear Sir:—Anxious though for many years on the subject of African Colonization, and all my observations, during my recent visit to the Republic of Liberia, have led me to the conclusion that no higher duty is imposed by Providence upon the Government of the United States, than that of encouraging and aiding the voluntary establishment of our free people of color on the African coast. Whether we regard their interests or our own, reasons, numerous, various, and full of beneficence, are suggested for their emigration to the land of their fathers. The greatest of these reasons is undoubtedly the good to be accomplished, through their influence and labors, in the civilization of Africa, a work the mightiest and the most honorable which remains to be accomplished in the progress of the human race.

The establishment of the line of steamers which you contemplate, under the auspices of the United States Government, will be among the most sure and efficient means that can be devised in the promotion of this vast and most benevolent enterprise, by making known to our free people of color the rich and unbounded inheritance of honor, wealth, liberty, and general prosperity which is open to them in Africa, by disclosing to the American people the motives which should dispose them to assist their emigration, thus uniting the sentiments of the white and colored races in the United States in a scheme advantageous to both, limited in its benefits to neither, but encompassing in its philanthropy one entire quarter of the world, and that the most miserable, and certainly, if less directly, all her dispersed and afflicted children.

Having become personally acquainted with the climate, soil, resources, people, and government of the republic of Liberia, I feel assured that the diffusion of correct information in regard to that country will increase ten-fold the interest now felt by the white and colored races in the United States, in the destiny of that free, independent, and Christian State. There, will it soon be seen, is the inviting field for the intelligence, the enterprise, the energy, the philanthropy, and the renown of the sons of Africa; and with them once there established as a virtuous, industrious, agricultural, and commercial people, our only rivalry will be which shall most excel in offices of good will, which derive largest advantages from the interchange of those benefits which ever mutually attend the friendly commercial intercourse of nations. I cannot believe that our Government will long withhold its favor from Liberia, or hesitate to adopt efficient measures to aid such of our free people of color as may aspire to an unembarrassed position, and the distinction of becoming benefactors to their race, in securing a free, happy, and honorable home within its limits.

I have the honor to be, my dear sir,
Very faithfully yours,
R. R. GURLEY.

Jeffrey.—The following anecdote of this celebrated reviewer will be keenly relished by all who are often favored with luxury of proof-reading. Wilson, his printer, was prodigiously prodigal of commas, and in marking a proof-sheet would frequently fill the margin with his favorite stop. On one occasion he wrote opposite a passage:

"Mr. Jeffrey, is there not some obscurity here?"

To this modest hint Jeffrey civilly replied:

"Mr. J. perceives no obscurity here, except such as arises from the quantity of commas which Mr. Wilson seems to keep in a box by his side, to pepper the proof with, instead of sand."

PROFESSOR A. E. BARRY'S
TRICOPHEROUS OR MEDICATED COMPOUND.

INFALLIBLE for restoring, invigorating, and beautifying the Hair, removing Scurf, Dandruff, and all affections of the Scalp, and curing Eruptions on the Skin, Diseases of the Glands, Muscles, and Integuments, and relieving Stings, Cuts, Bruises, Sprains, &c., &c. With this preparation, "there is no such word as fail." The first journals in America, medical men of the highest eminence, prominent citizens of all professions, and ladies who have used it for years in their dressing rooms and nurseries, admit with one accord, that, for imparting vigor, gloss, luxuriance, and curl to the hair, eradicating scurf and dandruff, healing wounds, curing contusions, sprains, stings, &c., and relieving diseases of the skin, the glands, and the muscles, it has no equal among the multitude of compounds advertised in the public prints, or used in private practice. In cheapness as well as efficacy, Barry's Tricopherous is unrivalled. The immense cash sales of the article have enabled the inventor to supply it at retail at twenty-five cents per bottle, which is from fifty to one hundred per cent, less than the price of any other preparation now in use. The scientific treatise on the hair and skin (embracing valuable directions for the culture and preservation of Nature's choicest ornament,) in which each bottle is enclosed, is alone worth the money.

The affinity between the membranes which constitute the skin, and the hair, which draws its sustenance from this triple envelope, is very close — All diseases of the hair originate in the skin of the head. If the pores of the scalp are clogged, or if the blood and other fluids do not circulate freely through the small vessels which feed the roots with moisture and impart life to the fibres the result is scurf, dandruff, shedding of the hair, grayness, dryness, and harshness of the ligament and entire baldness as the case may be. Stimulate the skin to healthful action with the Tricopherous, and the torpid vessels, recovering their activity, will annihilate the disease. In all affections of the skin, and of the substrata of muscles and integuments, the process and the effect are the same.— It is upon the skin, the muscular fibre, and the glands, that the Tricopherous has its specific action, and in all affections and injuries of these organs, it is a sovereign remedy.

Sold in large bottles—*price 25 cents*—at the Principal Office, 137 Broadway, New York. For sale by the principal Merchants and Druggists throughout the United States and Canadas, and by R. J. TAYLOR, Newport, and J. Balch & Son, Providence, R. I. apr30 6m

A GOOD CHANCE FOR A BAKER

FOR SALE a lot of land containing 10 1-2 acres of good land situated in the town of Whitehenson, Worcester county, Mass., it is within 3 1-2 miles distance from four very thriving manufacturing villages; two lying at the north and the other two south. It is one of the very best opportunities for establishing a Bakery, there being no Bake-house within 10 miles, the above piece of land is in a corner lot containing about 12 acres, there is an application for one acre, and wishing to reserve half an acre for myself, would sell the remaining 10 1-2 acres at the low price of *four hundred dollars*, one half the amount in cash, the balance may stand for a number of years if desired; the lot is well walled on three sides, on the other side is a slip of young Wood, some trees of good size, probably about 3-4 of an acre in this part. There is a fine chance to building on the front, the land is very convenient to fence into pastures, and for mowing for horses and cows; one part is watered by a spring. There is also a large number of bearing Apple trees upon the lot. Fuel is very low, the best of soft and hard wood is sold there from $2 to $3 a cord. TO THE LADIES.

WASHING, BLEACHING AND CLEANSING FLUID, the greatest labor-saving article yet discovered. By its use, washing machines and boards are entirely dispensed with, and but one quarter the labor is required to do the washing of a family.

The Fluid is a chemical compound of sufficient strength to extract all foreign substances from the cloth, by simply boiling a small quantity of it with the clothes, and without the slightest injury to the most delicate fabric.

The expense is not more than that of the soap ordinarily used, and besides this it will be seen that the great wear and tear of clothing consequent upon the old method of hard rubbing upon a board, and the use of the pounding barrel, is wholly avoided, and an *immense saving* is thus made. It is emphatically the female's friend.

☞ *Warranted to give perfect satisfaction, or the money will be refunded.*

SCROFULA

If thousands of cases of Scrofula, Cancers, Syphilis, and other manifestations of the Blood—as HAVE VERY SMALL QUANTITY which was used as a Medicine to effect cures of such diseases, be not proof of the purifying medical power in the Medicine which has produced and completed such diseases—then there is unquestionable evidence fail—

BRANT'S INDIAN PURIFYING EXTRACT

a such a Medicine, is every particular, and there is abundant proof, in great cures effected, that ONE BOTTLE of it contains more purifying, healing virtue, and evident power, than there is contained in FOUR BOTTLES of any *Sarsaparilla*, or any other medicine that has ever been offered for sale. There is unfeigned proof in our pamphlets, that by the use of this great *Indian Purifier*, they HAVE BEEN RAISED FROM BEDS OF SICKNESS, and are now LIVING yet LIVE—they that were LAME and CRIPPLED can now WALK—they that were SICK, SCROFULOUS and otherwise diseased, have been HEALED and CURED

Hundreds—Thousands—

who have used *BRANT'S PURIFIER*, after having used and tested all the *Sarsaparillas* and other medicines recommended to cure blood diseases, have decided that—

Brant's is the Cheapest;

because *one bottle* of it has more medical, curative matter in it, and, in consequence, cures *more disease*, in much less time, than one bottle of any other medicine.

If, then, *one bottle* of BRANT'S PURIFIER will *cure FOUR TIMES* more disease than *one bottle of Sarsaparilla*, or BRANT'S PURIFIER would be as cheap at *four dollars* a bottle, as *sarsaparilla* at *one dollar*. But BRANT'S PURIFIER is sold for only ONE DOLLAR a bottle, and as a bottle of it has cured, and is *capable of curing, FOUR TIMES* as much disease as *one bottle of Sarsaparilla*, therefore, Sarsaparilla, in consequence of its *less* power and *less* medical efficacy, should be sold at no more than *twenty-five cents* per bottle, to be as *cheap* as the PURIFIER is *one dollar*.

One Dollar's Worth!

How much CANCER—how much SYPHILIS—how much SCROFULA—will *one dollar's worth* of BRANT'S PURIFIER cure? Read the following statement, which is a specimen of its power:—

CANCEROUS SCROFULA!

This is the case of a *dying man* who *put them*. He was *cured* of a worse case of SCROFULA, by only *twelve bottles* of Brant's Purifier, than ever was cured by the use of *twelve* BOTTLES of the best *Sarsaparilla* that was ever made. Sarsaparilla has not sufficient medical power to effect the cure of such a *necrotically broken* case.

MR. J. B. HASKIN, of *Rome, Oneida Co., N. Y.*, had *Scrofula four years*—was confined to his bed the *last year*—he was so much diseased and debilitated as to be unable to raise his head to his head. He had the *best medical advice*—had unlimited *the best Sarsaparilla* to no good effect—got *worse and worse*, and was considered to be in a *dying state*, and could not live *twenty-four hours longer*, when he commenced using BRANT'S PURIFIER. His *neck was often partially off, from an abscess*, a hole was eaten through a *jugular*, under his chin, so that he breathed through the hole; his *ear* was so eaten *through* that it could be *blown* out of its place, it only holding by a *small piece*; the use of *one arm* was destroyed by two ulcers; an ulcer under the arm, as large as an egg, had eaten in hand, and nearly eaten through his side into his body. Thus he was afflicted with *twenty such painful, awful, offensive ulcers*, on various parts of his person. For further and full particulars, see our PAMPHLETS.

DR. THOMAS WILLIAMS, one of the most skillful physicians of Rome, was called to see Haskin *the day before* he commenced using Brant's Purifier. Dr. W. examined him, and then told him that *all the medicine in the world could not cure him*—that his case was—

Worse than Hopeless!

Now Hear Mr. HASKIN'S statement of cure!—He said: "My wife procured one bottle of *BRANT'S PURIFYING EXTRACT, of Hiram A. Leonard*, druggists of Rome. I commenced using it, hoping *it would do me no good*. It *enabled me to get off my bed*, where I had been confined *one year*; the *second bottle* enabled me to *get out of the house*; the *third bottle* enabled me *to walk two miles*, to Rome Centre, where I procured the *fourth bottle* more; and when I had finished using them, *seventeen ulcers had healed up*—and *three bottles* more effected a PERFECT CURE of all the ulcers, and restored me to *good health*."

FOURTEEN WITNESSES!

Mr. HASKIN has sworn to the above facts, and the facts are witnessed and confirmed to us by the following NAMES—Mr. B. R. BROWN, proprietor of the *West-Rome Hotel*—Messrs. BISSELL & LEONARD, wholesale and retail druggists—and ELEVEN other *respectable witnesses*.

AND LETTERS FROM

D. B. KINNEY, merchant, *Clinton, Oneida county*, N. Y., informs us that a number of his neighbors in that vicinity have wonderful cures of Cancers, Scrofula, by use of BRANT'S PURIFYING EXTRACT. A *successful* case in Oneida county, N. Y., is now making a sad Pentecost. A. G. BETTLE, druggist, at Conghanton, Madison co., N. Y., has informed us of an important cure of a Cancer of long standing, which was effected on an old man. *There*, therefore, this PURIFIER *cures Cancers*; its curativing healing powers, when applied to diseases of the blood can not not cure! Before you despair, examine our pamphlets—in 10 days there are some testimonials will come.

FEVER-SORE CURED.

The Rev. RICHARD DUNNING, Pastor of the Presbyterian church, Adams Basin, Monroe county, New-York, writes to us: "I have just received a letter from Mr. Caleb Dove, of Ireland, Ohio, to the care of the Presbytery. He may depend on what it states. Dove has been a Cripple for an elder in the church. Some years since his foot became one of his legs *rotten*, so as to *cut off his life*, in consequence of a Fever-sore. The other leg being now affected, he was about to be amputated, when he commenced BRANT'S PURIFIER. Read the letter. He says: "*I have cured my leg by using BRANT'S MEDICINE. I placed this Bottle from your recommendation, in that Medicine*, and I can now say that, with the blessing of God, *it has effected a cure of my leg!*" See Pamphlets for full particulars.

LIVER-COMPLAINT!

Dr. NATHAN HUBBARD, of *Stamford, Conn.*, one of the oldest and most respectable physicians, was afflicted with *Liver-Complaint* many years, and was *perfectly cured by using* BRANT'S PURIFYING EXTRACT. We could name hundreds of other cases, also cured.

FEMALE WEAKNESSES & COMPLAINTS.

No remedy offered to the public has ever been *half so effectual and effective in curing* ALL the incidental *weaknesses* and *irregularities* of the sex, as BRANT'S PULMONARY BALSAM. It makes no difference whether the derangement be *suppression, excess, or other weakness*—it REGULATES ALL, by *strengthening the system, equalizing the* CIRCULATION, and *soothing and allaying* NERVOUS IRRITABILITY. See pamphlets.

CHANGE OF LIFE,

beat the girl to the woman, and the *woman at which age* is most *critical* is *accelerated*, and the other *so gradually imperceptible*, as to prevent any of the *fatal diseases* that frequently arise in consequence of such change.

Dyspepsia—Sour Stomach!

"ATTICA, GENESEE CO., *February 1, 1845*.

"H. T. WALLACE & CO.—*Gentlemen*: I was, for more than a year, afflicted with a disease of the stomach. I could not eat any fat or greasy substance without causing great pain, sickness, and vomiting, and was continually afflicted with a sour stomach. I, as an experiment, tried one bottle of BRANT'S MEDICINE, which, to my utter disappointment, *cured and effected the same pain after eating*. I therefore used a second bottle, which has completely cured the disease. I am now well and hearty, and can eat almost anything without being pained or the stomach becoming sour. Yours respectfully, T. S. WILCOX."

Mr. Wilcox is an respectable merchant of Attica.

NURSING SORE MOUTH, LEUCORRHŒA, &c.

"BYRON, GENESEE CO., N. Y., Oct. 19, 1847.

"*Messrs. H. T. WALLACE & CO.*: Some time last year my wife became so debilitated from the effects of *Leucorrhœa and Nursing Sore Mouth*, that she could not lift her child or nourish any breast full labor. Her medical treatment was varied according to the advice and prescriptions of the most eminent physicians, until *our hopes* was exhausted in useless efforts. She became so very a skeleton, that at the time she commenced taking *Brant's Medicine* she weighed no more than *eighty-five* pounds; but by the time she had taken *four bottles*, she became perfectly well. The cure is so perfect, that she is now enabled to do all necessary household work, and gained thirty pounds of flesh in four weeks. Yours truly, "C. B. GALENTINE."

The reader will observe that Mr. GALENTINE says "our child." He, we are informed by Z. S. TERRY, Esq., of the same place, has used the medicine.

MERCURIAL DISEASES.

BRANT'S PURIFYING EXTRACT is a *perfect and sure cure for all the effects of* MERCURY, or any of the various preparations of CALOMEL or MERCURY, from the system; and it restores the *blood, muscles, and all the parts* thereof, to their original, HEALTHY STATE.

GENERAL DEBILITY OF THE SYSTEM!

Mr. A. HOLLINSTANDER, merchant, *Oberlin, Lorain Co., Ohio*, wrote, December 10, 1846, and after having stated how he *cured* his wife's consumptive cough, said: "I have personally used *BRANT'S PURIFYING EXTRACT*, for general debility of my system, and I have no hesitation in saying that it is the best medicine to RESTORE and INVIGORATE THE SYSTEM that I have ever used. In every instance where we have sold BRANT'S MEDICINES, they *have proved their efficacy, and given the best satisfaction*."

SALT RHEUM,

and all impure *chronic diseases of the* BLOOD, are always *cured by BRANT'S EXTRACT*.

THE REMARKABLE SANATIVE POWERS OF DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF

These counterfeits and imitations only PROVE the VALUE of the ORIGINAL; and no HIGHER COMPLIMENT could be paid to Dr. S. P. Townsend's Extract of Sarsaparilla than the laborious efforts that have been made by many to get up SOMETHING LIKE IT. DR. CHRISTIE'S GALVANIC BELT, BRACELET AND NECKLACE AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the most valuable medicinal *discovery of the Age*.

Dr. CHRISTIE'S GALVANIC BELT
and
MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of—

GENERAL DEBILITY,

strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS and PALSY, DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES which complaints arise from one simple cause—namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease*, for they weaken the vital energies of the already prostrated system; while under the strengthening, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer, is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists, in the fact that they arrest and cure disease by *outward application*, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been ENTIRELY AND PERMANENTLY CURED, when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford *temporary* relief, but which leave the patient in a lower state, and with injured faculties; after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT! Take a Dyspeptic sufferer, a victim to the worst symptoms of an attack, and simply fasten the Galvanic Belt upon the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS

Of the most Unfoubted Character,

From all parts of the Country could be given, sufficient to fill every column in this paper!

AN EXTRAORDINARY CASE,

which conclusively proves that

"Truth is stranger than Fiction,"

The following letter, narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and extensive reputation:—

SHOWS, New Jersey, July 12, 1848.

DR. A. H. CHRISTIE.—Dear Sir: You wish to know of me what benefit you could do my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about twenty years I have been suffering from Dyspepsia, some years more, some less, severe, accompanied with great nervous debility, so that my physicians were skillful and excellent men, but with their prescriptions failed. About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which, by year after year, caused me to be inconsolable sufferer. In the interval, my physicians sometimes afforded me great relief; but this relief was only temporary. Farther, in the winter of 45 and 46, in consequence of preaching a great deal in my own and various other churches, in this region, I was attacked with a bronchitis, which soon became so severe as to render my immediate suspension of my pastoral labors. My nervous system was now thoroughly prostrated, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection. I was convincing that these complaints were reinforced with each other through the medium of the Nervous System. My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties, and the performance of those labors in which my soul has ever found the highest of her joys. But returning from effect to cause, I concluded that the Nervous System must be reached, before any hope could be indulged of my obtaining relief from these most distressing maladies. In the whole pharmacopeia there seemed to be no remedial agent which could reach and reconstruct my Nervous System; every thing that I had tried for this purpose had completely failed. At last I was led, by my friends to examine your intentions, and (though with no very sanguine hopes of their efficiency) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1845. TO MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPEPSIA HAD CEASED, IN EIGHT DAYS I WAS ENABLED TO PREACH. MY PASTORAL LABORS HAVE I SINCE RESUMED WITH SINGULAR ADVANTAGE ON ACCOUNT OF THE BRONCHITIS; AND MY RHEUMATIC AFFECTION ALSO CEASED TO TROUBLE ME. If time permitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract, or it is to be feared my life will be lost. The Rheumatism, or life-while chills me, but not severely, and is easily arrested, and is manifestly being driven from its hold upon my system, and my Bronchial affection is entirely cured. Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been sickness suffering from Neuralgic affections. They have tried them, WITH HAPPY RESULTS, I BELIEVE IN EVERY CASE.

I am, dear sir, very respectfully yours,

BRANT'S INDIAN PULMONARY BALSAM

cures very many of the most strongly marked and developed cases of PULMONARY CONSUMPTION—*yes, undoubted cases of incipient* CONSUMPTION of the LUNGS—such HOPELESS cases as were never before cured by any other medicine. *So utterly hopeless* were some of the afflicted persons, as to have been pronounced by *physicians* and friends to be ACTUALLY DYING. Some, who had their burial-clothes made, have been cured, and yet live; others, who it was said would not live another day, are now as well and hearty as they ever were.

It possesses all the cleansing and purifying virtues nearly as powerful and active as the preparation which we call

BRANT'S INDIAN PURIFYING EXTRACT.

The Balsam differs from the Extract, because it possesses *special medicinal virtues which are peculiarly adapted to, and are essentially necessary for, the cure of*

COUGHS AND CONSUMPTIONS,

and all diseases of a pulmonary nature—such diseases as totally prove to fatal under ordinary treatment, when they attack the

Breast, Throat, Lungs, and Heart.

THE BALSAM HEALS AND CURES ULCERS in the *LUNGS*, and elsewhere *internally*, as *certainly and safely as the* PURIFYING EXTRACT *cures and heals ulcers externally*. This Balsam *cures MANY cases of Cough and Consumption* out of TEN, after all other remedies have *failed to do good*.

Thousands of Consumptions

and *Chronic Coughs* abundantly prove its *unfailing efficacy* in such diseases, and its unlimited curative power and soothing, healing properties, in the following complaints and diseases, viz.: *Spitting of Blood, Bleeding at the Lungs, Pain in the Breast and Side, Night-Sweats, Nervous Complaints, Palpitation of the Heart, Cholera Infantum, Dysentery and Summer Complaints in Children and Adults*, and all FEMALE WEAKNESSES.

CONSUMPTION.

A DYING WOMAN CURED!

We state this cure, to prove the POWER TO SAVE LIFE when THIS BALSAM is used, even after the person is *considered by physicians and friends* to be in the *last stages of disease*—actually DYING—and, in this case, so far GONE that the shroud and burial-clothes *were bought!* For the *particulars* of this case, and the *respectable and undoubted proof* of all the circumstances and facts, we refer to our PAMPHLETS.

THE cure was effected on Mrs. ZIBA DYKEMAN, of *Ballston Spa, Saratoga County, N. Y.* We can prove, beyond a doubt, *many other, almost equally hopeless*, and undeniable cases of *Coughs and Consumptions CURED*, which were *pronounced incurable* by skillful PHYSICIANS.

A DOCTOR CURED!

DR. J. W. FRENCH, *of Hillsdale, Hillsdale county, Michigan*, about the 1st of January, 1849, wrote as follows:—I have been in the regular practice of medicine in this place for nine years, but was obliged to quit the practice of my profession in consequence of ill health. I was so severely afflicted with a *chronic disease of the lungs*, as to convince me that I HAD THE CONSUMPTION, past doubt. I coughed almost incessantly, night and day, and had severe pains and soreness in my chest, side, and breast. I tried the remedies recommended by the most skillful of the profession, all to no effect, except that my losses and debility caused by them. I was prejudiced against patent medicines, and have no faith now in them generally. But I was induced to try an experiment, more than through faith—to try a bottle of BRANT'S INDIAN PULMONARY BALSAM; and I do here acknowledge, for the benefit of the afflicted to whom it may serve, that the effect of it in me was the most prompt and salutary of any medicines I ever witnessed the effect of in all my practice. *My cough was immediately relieved*, and in about eight or ten days I was free from cough, soreness of the chest, and pain, and now consider and *pronounce myself a* WELL MAN."

Dr. French is now a respectable druggist at Hillsdale.

FITS, FITS, FITS.

Messrs. J. K. LIPPINCOTT & SON, respectable merchants at *Hollidaysburg, Sullivan county, Pennsylvania*, wrote to us, May 19, 1848, stating, among other GREAT BENEFITS which had been derived from the use of BRANT'S PULMONARY BALSAM, that one of their customers had just informed them that her child, which had been subject to FITS for several years, was cured by the use of BRANT'S BALSAM.

Would soon be in a Grave.

Mr. WILLIAM D. JENNINGS, a merchant at *Pierpont Centre, Ashtabula county, Ohio*, wrote to us, October 2, 1848 and stated a case of CONSUMPTION which BRANT'S *INDIAN PULMONARY BALSAM* had effected in Mr. WILLIAM CROCKET, of an adjoining town. He said Mr. Crocket had sought relief from the best physicians and numerous medicines, but found none, for the fatal hand of that unrelenting incubus, *Consumption*, had taken fast hold of his vitals, and was so wasting and debilitating his body, that he was a mere skeleton. He was *given up by* his physicians and all his friends, as one who would soon *inhabit a grave*. But even in this last extremity, strange and marvellous as it may seem, yet it is true, that the use of only *five bottles* of BRANT'S INDIAN PULMONARY BALSAM has entirely expelled the hand of the *destroyer*, and restored Mr. Crocket to health, and he is now a *healthy, hearty, rugged man!*

E. BUCHANAN, Esq., *merchant and postmaster of Jefferson*, an adjoining town, wrote us that he knew the above case, and stated that he was acquainted with Mr. CROCKET, and *believes* to the cure, and *all the above named facts*.

Judge M. M. Noah said, in his Weekly Messenger," January 6, 1850.

"*Dr. Hoofland's German Bitters.*—Here is a preparation which the leading physicians in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hoofland, professor to the University of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of *humbug*, and therefore a medicine of which he was the inventor and inventor may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted."

[MORE EVIDENCE.

The "Philadelphia Saturday Gazette," the best family newspaper published in the United States. The editor says of

DR. HOOFLAND'S GERMAN BITTERS:

"It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, and for honest and conscientious inventors and vendors of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit, and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and buy no more. And inventors must only blame those of their number, who ignorantly combine plain medicines together for the purpose of making money, for the ill success which attends the effort of the deserving."

"We believe Dr. C. M. Jackson's Hoofland's German Bitters, to be a most excellent medicine, and one that should be highly popular in these days of Temperance—for they are altogether Vegetable in their composition, without one drop of Alcohol or Spirits in them. This medicine is innocent, but strengthening in its effects, and richly deserving of a wide popularity, which, when it becomes known, it will, no doubt, fully enjoy."

"*Patent Medicines.*"

LIVER COMPLAINT,

JAUNDICE, DYSPEPSIA, CHRONIC OR NERVOUS DEBILITY, DISEASE OF THE KIDNEYS,

And all diseases arising from a disordered Liver or Stomach, such as Constipation, Inward Piles, Fullness, or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or weight in the Stomach, Sour Eructations, Sinking or Fluttering at the pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating sensations when in a lying posture, Dimness of Vision, Dots or webs before the Sight, Fever and dull pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden Flashes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great depression of Spirits can be effectually cured by:

DR. HOOFLAND'S
CELEBRATED GERMAN BITTERS,
Prepared by
DR. C. M. JACKSON,
AT THE GERMAN MEDICINE STORE,
120 Arch Street, Philadelphia.

Their power over the above diseases is not excelled—it equalled—by any other preparation in the United States, as the cures attest, in many cases after skilful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and pleasant.

READ AND BE CONVINCED.

Chas. Robinson, Esq., Easton, Md., in a letter to Dr. Jackson, January 9, 1850, said—

"My wife and myself have received more benefit from your medicine than any other we have ever taken for the Dyspepsia and Liver disease."

"The Tenth Legion," published at Woodstock Va., January 10, 1850, said—

"A GREAT MEDICINE."

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the *German Bitters*, invented by Dr. Hoofland, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fallen under our observation. During the last summer, a son of Mr. Abraham Cunbill, of this county, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is restored perfect to health."

READ FURTHER A FEW FACTS.
